

REBECKA ROSDAHL

Engineering student
- Master Thesis Fall 2020

EDUCATION

2016-2020 **M.Sc Interaction and Design, Umeå University**

Studying interaction and design has helped me develop my coding and prototyping skills, often in collaboration with real case companies such as Sigma, SVT and Uminova Innovation. Combining real cases with theories and coding has helped me develop a toolbox of problem solving.

ABOUT ME

A happy and driven girl who likes new challenges! I am passionate about UX and UI. Combining logical thinking with practical creation is what I enjoy with my studies. In addition to developing applications, systems and websites, graphic design is a big interest of mine. I look forward to begin my professional career and doing so half a year ahead since I have studied at a faster pace.

EXPERIENCE

2020-

Off Script, Internship UX, Stockholm

This summer I had an internship at the start-up company Off Script. In my work I created prototypes for the different users: customers, influencers and brands. Which has been implemented and will be launched this fall.

2019

Teachers assistant, Umeå University, Umeå

During the fall of 2019 I have been part of teaching the course Interaction-technology and Design. The work involved teaching in workshops and helping students with their projects.

2018 -

Seller, Textile and bathroom, IKEA, Umeå

Besides my studies, I have been working part time 20% at IKEA and the textile and bathroom department. My work involved meeting customers, consulting in bathroom-fittings and closing the registers.

2014-2016

Travel Guide, STS Alpresor, Champoluc, Italy

During winter and summer season, I worked as a travel guide. This was a great time, combining my love of people and nature.

SKILLS

Java	Unity	Sketch
React	.Net	JavaScript
Phyton	HTML	Illustrator
C++	Css	Photoshop
Rhino	C99	Figma

NON-PROFIT WORK

2018-2019

Hackathon, Brännbollsyran, Umeå

Winner of Brännbollsyran Hackathon 2019. My team and I created a mobile application in React. Our winning proposal included a solution to the issues of people leaving the festival between the acts and is to be implemented by Brännbollsyran.

2018-2019

Creator, Pepp, Umeå

During two semesters, I was part of the project group for the Pepp organization. Pepp helps inspire young girls to continue studying for engineering degrees after high school. It was a rewarding position where I got the opportunity to be creative.

2017-2019

Ski instructor, Friluftsförbundet, Umeå

During the winter seasons I have helped children to learn how to ski and to have fun in the slopes. I really enjoy sharing my passion with others.
